15B. Signature of Contractor (Signature of person authorized to sign)	15C. Date Signed	16B. District of Columbia <i>Heather Reynolds</i> (Signature of Contracting Officer)		16C. Date Signed 8/13/2024	

7. Q: Is this District open for a custom-built solution that can meet all requirements versus a COTS solution that might be restricted?
- A. Yes the District is open to a custom-built solution though the preference is for a Commercial Off The Shelf (COTS) product so that security and regulatory updates will come automatically from the vendor serving many clients as this will reduce long-term costs. However, we recognize that it is possible that no COTS product meets our requirements at significant customization may be required, so that at some point, a custom-built solution may be necessary.
8. Q: "Is there a prerequisite that the vendor must have a pre-built Bi-Directional integration with PeopleSoft or is this something that can be scoped and custom developed as part of the project?"
- A. No, it is not a prerequisite that the vendor have existing bi-directional integration with PeopleSoft but we wanted vendors to know that integration with PeopleSoft will be necessary for implementation as it will continue to be used for payroll, vacation tracking and so on.
