8. Q: "Is there a prerequisite that the vendor must have a pre-built Bi-Directional integration with PeopleSoft or is this something that can be scoped and custom developed as part of the project?"

UPDATED ANSWER

- A. Bi-directional integration with PeopleSoft is necessary for implementation as data will have to be imported for job postings, and PeopleSoft will continue to be used for payroll, vacation tracking and so on. Data transfer will be through the Oracle SOA Gateway. While it isn't a pre-requisite that vendors demonstrate that they have done this before, it is preferred.
